

The Net Effect provides technology consulting services on information security and project management to commercial, non-profit and governmental organizations. Our team of experts work with our clients' IT staff and third-party vendors to develop optimal solutions to operational challenges.

Glenda R. Snodgrass
President and Lead Consultant
since 1996

Glenda's dynamic personality and effective teaching style have made her a sought-after public speaker and corporate trainer on the Gulf Coast for more than twenty years. Phyllis Denomy, Deputy FSO at VT Halter Marine, says "*she had large groups of ship yard workers hanging on her every word*" while Brent Hutfless, IT Director for Austal USA, says "*Glenda has a gift for presenting information in a way that anyone can understand.*"

All of Glenda's presentations are comprised of original material, constantly updated. They are based on industry standard best practices, current threat analysis, and real-world security practices that every end-user can implement, both personally and professionally.
